

Milfee

Milfee

Feed Bin  
Management Solution  
**Milfee**

- ✓ No More Hassles of Manual Feed Inventory Checks and Guesswork
- ✓ Eliminate the Need to Climb Bins
- ✓ Ensure Timely Deliveries

*For Swine, Poultry, or Cattle Operators  
Facing These Challenges!*

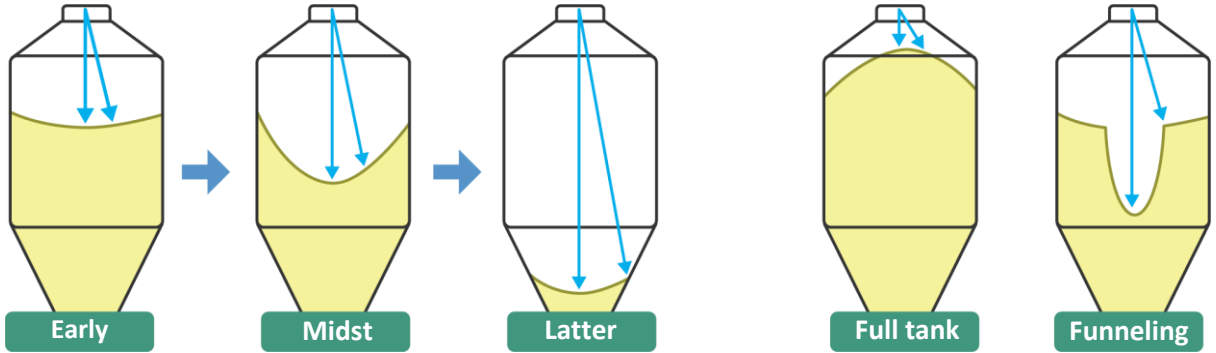

01

## Precisely Measure the Inventory Quantity of Various Types of Feed

Patent number: 7026285

Utilizing our patented technology, our sensors accurately estimate the shape of the feed.

Accurately measure feed inventories even when full or with sinking mash feed

02

## Easy Installation Without Drilling Tanks and Wiring

No need for power, network, or installation work. Simply attach the *Milfee* sensor inside the lid with a strong magnet. No quarantine procedures are necessary for vehicles or workers.

**Installation Time**  
Approx. **5 min**  
per unit

**Milfee Device (Sensor + LPWA)**  
Securely fixed to metal lids with a strong magnet

**Fall Prevention Wire**

03

## Monitor Feed Levels at Your Fingertips, 24/7

No special equipment needed. Just access *Milfee* Cloud from your smartphone, tablet, or computer. You can check your feed tank levels anytime, anywhere.
